5 240127 Gen Wheeler WP Gen Wheeler visited War Room. Reviewed C7CER & significant events. Discussed the following with Gen Parker:
1. Savannah base project - Chief of Staff directed that specific recommendations be obtained from M-1 on construction of port facilities at Savannah.

2. Gen Parker advised the C7C that 1 RUE has been added to the P.D.M. hub to bring the total up to 5221's

3. The C7C is still not satisfied with plane scheduling tasks assigned to R-1. In original planning the lack of tank support was a concern, but the situation has changed. The C7C wants tank support with landing craft. If C7C will be able to advise R-1 to query that present plans for tank support are appropriate, the Army staff must give counsel.

4. Pass to the Army Staff that the selection of Army
~~selected~~ component units for Bell tr-3 should not be

L40 / 00+

2424 - 00+

based solely on proximity to the area of employment, but rather on combat readiness. In the event like units have approximate equivalent combat readiness, then proximity would be factor.

CINCPACFLT CINCPACFLT

BRIEF: 1. CINCPACFLT requested units except the 162 Signal Co (Missile support) are released from the operational control of CINCPACFLT and made available for employment by CG USOONWFO. The 162 Signal Co is an element of a critical unit, the 3d Msl Cmd, and will not be released at this time.

2. Referring to the HQ and dg Co of the 3d Msl Cmd. This HQ does not occur in release of this unit. Another unit to provide administrative and logistical support for the MSLT advanced P must be obtained from some source. The HQ Msl Cmd is not part of a critical unit and has been reported as part of the NMTRICLM Forces constituting the JCS reserve.

40 CINCPACFLT

BRIEF: 2. Certain combat and service support units currently on the USOONWFO list, but not committed to MSLT, RSLT, RSLC, and comprising part of the NMTRICLM Forces constituting the JCS reserve are being withdrawn and committed to the FLOR-FLA H defense of the Florida Keys. While it is recognized that every eventuality must be accounted for, it does seem that the concentration of forces in Florida would be to provide any threat against this area.

3. This has disconcernured in the release of two elements of the 3d Msl Cmd. The HQ and HQ Co was committed without prior clearance with this HQ. The 162 Signal Co was requested and denied by me.

41 xi CINCPACFLT CINCPACFLT

4. The 3d Msl Cmd (air) is an air transmittable unit and is capable of providing massive fire power. It strongly recommends this unit be retained intact for emergency use as directed in the present situation.

BRIEF: 1. It is directed that the HQ of the 1st and 2nd Div be moved to Ft Stewart GA concurrently w/ Task Force Charlie.
2. Movement directive in order prepared to have element fighting reg to Ft Stewart G.P following day.

242400Z Oct

3. Prepare on-call force 1st Land Div for movement by rail, probably destination Ft Stewart.

24 October -- 0830 Hours -- GENERAL PARKER'S DEBRIEF

Re: I have been looking for a message from JCS concerning the use of the National Guard AW units -- check it.

(NOTE: Taber, Plans, present (action Mock). Mock informed 0850.)

2. What three or four AW units are the highest operationally ready. I have asked General Carns to look into this. Same note as in 1 above. (Taber passed to O&T -- Foster has action.)

3. When will the Meade HAWK unit be operational? I have stated 26th; if this is not true, tell me. Check with Mock. It is about right. He will check with ARADCOM.

I want to know operational readiness estimate on NIKE and 2 HAWK. (Mock has action.)

Is the NIKE STRAC? Answer: Yes.

Clear up the number of batteries in the cable which went out on this. (Mock has action.)

4. Message on WR Board from CONARC to AMC concerning date ~~resulting~~ from investigation of Savannah as a port for 1st Armored.

Question: What is recommendation? Check AMC for answer. AMC may want to check with CONARC before giving General Wheeler his answer. (WH has action.)

General Wheeler wants medium armor before D-3 -- mention Anderson's name. (WH has action.) This is same problem Anderson has been working on. This disagreement on the plan will be discussed with CONARC.

5. Additional guidance: General Parker wants answers piecemeal on operational readiness of HAWK and NIKE. Express the number of batteries rather than the battalion (-).
